

ASP FACTS

PRODUCT: **Tactical Triad®**

ADVANTAGE:

The Tactical Triad is specifically designed for use with ASP Expandable Batons. It is compact, rugged and incredibly bright. Precision machined from high strength aerospace aluminum, the light is anodized with a proprietary satin black hardcoat finish. The Tactical Triad is accented by an extremely durable foamed vinyl grip. It is powered by a leak proof CR123 Lithium battery with a 10 year shelf life.

SPECIFICATION:

- 6061 T6 aluminum body
- Precision machined
- No sharp edges
- O-ring sealed
- Hardcoat anodized
- Matte black finish
- Self cleaning computer micro switch
- Rotary micro switch activation
- CR123 Lithium battery
- Cree LED

PERFORMANCE:

The Tactical Triad can be attached to any of the 2.5 million ASP Tactical Batons® in operation worldwide. Its rotary switch is positive, yet secure from accidental activation. The metalized parabolic reflector produces a brilliant white penetrating beam of incredible brightness.

SALES STRATEGY:

Install the Tactical Triad on the back end of an ASP Baton. Demonstrate the compact size, ease of handling and brilliant beam of the Tactical Triad. Show the rapid escalation that is possible from light use in a ready position to baton use. Explain the tactical advantages of having a baton in hand while using a 70 lumen LED light.
