

ASP FACTS

PRODUCT: **Scarab®**

ADVANTAGE:

Scarab restraint cutters snap onto an officer's keyring. They safely remove all brands of disposable restraints with compound leverage. The cutter is compact, powerful and easy to use.

SPECIFICATION:

- Compact design
- Stainless steel blade
- Stainless steel pivot pin
- Engineering grade resin
- Lightweight
- Compound leverage
- Guarded blade
- Restraint hook
- 90° cutting action
- Keyring loop
- Slide lock

PERFORMANCE:

Scarab restraint cutters hook onto and cut all brands of disposable restraints at an efficient and convenient 90° angle. They use compound leverage to effortlessly pierce and sever restraints from the center outward.

SALES STRATEGY:

Compare the light weight, compact size, smooth profile and leveraged cutting power of the Scarab to other cutters on the market.
