

ASP FACTS

FEATURE: Two Pawl High Security Lock Set

ADVANTAGE:

The Two Pawl Lock Set provides increased security through a tamperproof design. A stainless steel divider plate makes it impossible to pick the lock of an ASP cuff which incorporates this Lock Set. The two pawl key will unlock all standard handcuffs. However, standard handcuff keys will not unlock the Two Pawl Lock Set.

SPECIFICATION:

- Snap-in Lock Set
- Replaceable
- Two-sided keyway
- Stainless steel keyway
- Welded steel post
- Two lock bars (pawls)
- Split lock spring
- Stainless divider plate
- Lightweight double lock bar
- Two-sided double lock bar
- Blue double lock indicator
- Same direction single and double lock release
- Cannot be removed while cuff is in place

PERFORMANCE:

Replaceable Lock Sets make Tactical Handcuffs the most versatile, durable and repairable handcuffs on the market. The Two Pawl Lock Set provides increased security through its pickproof design. The two pawl key unlocks all standard police handcuffs.

SALES STRATEGY:

Demonstrate the ease of replacing ASP Tactical Handcuff Lock Sets. Use the ClearView® Cutaway to show the function of the two pawls and stainless divider plate.
