

ASP FACTS

PRODUCT: Double Cuff Case

ADVANTAGE:

The ASP Double Handcuff Case retains Chain, Hinge or Rigid Restraints in a secure, low profile configuration. The elastic side technology of the carrier yields a compact, divided design. The adjustable Velcro® cover securely retains one single or two stacked handcuffs. The Velcro is guaranteed for 10,000 closure cycles. The case includes a Pentagon Handcuff Key mounted in an integral back pocket.

SPECIFICATION:

- Carries Chain, Hinge or Rigid cuffs
- Holds one or two cuffs
- Low profile
- Secure retention
- Compact
- Elastic side technology
- Adjustable Velcro cover
- Handcuff Key Pocket
- Leather finish
- Ballistic nylon finish
- Suede lining

PERFORMANCE:

ASP Chain, Hinge or Rigid Handcuffs can be carried in the Double Cuff Case. When one cuff is removed for use, the Velcro cover and elastic side walls adjust to the reduced stack height. The case securely retains the remaining cuff.

SALES STRATEGY:

Show the flexibility of the Double Cuff Case in retaining any combination of Chain or Hinge Handcuffs. Demonstrate how the Velcro cover and elastic side walls of the Double Cuff carrier securely retain a remaining cuff after the first handcuff has been removed for application. Point out the Handcuff Key Pocket and forged Pentagon Key.
